TideMinders - Roll With The Flow

The TideMinders system for controlling dock/mooring lines in tidal or choppy waters is simply amazing. No more adjusting lines. Let TideMinders "roll with the flow" and do the work for you. No tools required! If you can tie a figure 8 knot, you're ready to use TideMinders.

Solar Lights

We have developed a new solar powered light and passive venting system aimed at making porta-potties much more user friendly after dark. The MoonLite turns on automatically at dusk and off at dawn. A powerful LED keeps your portable lit through the night.
